

SOCIAL FACILITATION: REBUILDING A BETTER FUTURE NGO-CBO – partnership with government

The success story of partnership in improving lives

reconstruction and redevelopment project

- Sydenham Heights
- Chatsworth upgrade

The Ethekwini Municipality's project is a heroic and bold move to "revolutionise" decades of systematic dehumanisation of a community. However, redecoration is the first step into a whole new positive phase for social change. The project is therefore not just about rehabilitating dwellings but changing lives for the better.

OCR'S ROLE is to ensure that the municipality's projects are successful in achieving its objectives of the redecoration of the dwellings and the rehabilitating of an entire community. OCR is therefore tasked ensure that the spirit of partnership between all stakeholders is kept alive.
